CONTENTS

Special Issue: Papers presented at the workshop on 'Unresolved Experimental Dilemmas in the Dynamics of Complex Fluids' at the Isaac Newton Institute, University of Cambridge, January 1996

Editorial ix
Unexpected phenomena observed in particle settling in non-Newtonian media
G. Gheissary, B.H.A.A. van den Brule (Rijswijk, The Netherlands) 1
Rheological and geometric scaling of purely elastic flow instabilities
G.H. McKinley, P. Pakdel, (Cambridge, MA, USA), A. Öztekin (Bethlehem, PA, USA) 19
Stress relaxation and elastic decohesion of viscoelastic polymer solutions in extensional flow
S.H. Spiegelberg, G.H. McKinley (Cambridge, MA, USA) 49
Stress relaxation in uniaxial extension
N.V. Orr, T. Sridhar (Clayton, Vic., Australia) 77
Elongation and subsequent relaxation measurements on dilute polyisobutylene solutions
J. van Nieuwkoop, M.M.O. Muller von Czernicki (Rijswijk, The Netherlands) 105
Extravagant viscoelastic effects in the Worthington jet experiment
J.M. Cheny, K. Walters (Aberystwyth, UK) 125
Computational studies of the FENE dumbbell model with conformation-dependent friction in a co-rotating two-roll mill
P. Singh, L.G. Leal (Santa Barbara, CA, USA) 127
Viscosity and structural relaxation in concentrated hard-sphere colloids
W.C.K. Poon, S.P. Meeker, P.N. Pusey, P.N. Segrè (Edinburgh, UK) 179
Rheology and thermodynamics in partially miscible polymer blends
W. Soontaranum, J.S. Higgins, T.D. Papathanasiou (London, UK) 191
A singularity in the melt flow of polyethylene with wider implications for polymer melt flow rheology
J.W.H. Kolnaar, A. Keller (Bristol, UK) 213
The origin of banded textures induced by shear—a suggested scheme and a relevant rheological effect
H. Fischer (Eindhoven, The Netherlands), A. Keller (Bristol, UK), A.H. Windle (Cambridge, UK) 241
How do polymers stretch in stagnation point extensional flow-fields?
S.P. Carrington, J.A. Odell (Bristol, UK) 269
Macromolecular strain in periodic models of porous media flows
N.E. Dyakonova, J.A. Odell (Bristol, UK), Yu.V. Brestkin, A.V. Lyulin (St. Petersburg, Russia),
A.E. Saez (Caracas, Venezuela) 285
Slow dynamics in gels
H. Randrianantoandro, T. Nicolai, D. Durand, F. Prochazka (Le Mans, France) 311

Short Communication
A note on settling in shear-thinning polymer solutions
V. Navez, K. Walters (Aberystwyth, UK) 325
